

*NEUwave* is a dissertation on motion and emotion, intimacy and peace, connectivity and duality, nurturing and nourishment, self love and self healing. A translation through the lens of poetry, paintings, photography and sound. An introduction to the evolution of the progressive being.

Our energy is the channel by which we connect to our world, the frequency that allows us to make sense of our human experience. *NEUwave* provides an opportunity to experience the deepest of human connections, the stories and emotions that toggle between light and darkness. Humanity will forever remain in balance of itself, but through expression we understand, alter, elevate, and are able to articulate those energetic fields. Through the beauty of intimacy, through the beauty of life in its forever evolving forms we are able to tap into and create the current for the waves of our existence.

*NEUwave* includes work by a multi-faceted cast of Denver-based creatives, including poet Anisah Amat, photographer Brien Hollowell, painter Destiny Acuna, and sound and video by DR3AMCA\$T (Chree Bagheera and Eric Estrada).
